

<p>SYMPTOMS</p> <p>1. Is the child receiving services currently experiencing symptoms of COVID-19 that are not typical for him/her?</p> <ul style="list-style-type: none"> – Chills – Congestion or runny nose – Cough – Fatigue – Fever \geq 100.4°F (38°C) – Headache – Loss of taste or smell – Muscle or body aches – Shortness of breath or difficulty breathing – Sore throat – Nausea / Vomiting – Diarrhea 	<p>If yes, and the child tests <u>positive</u> for COVID-19 or <u>chooses not to be tested</u>, the child can return to ChildServe after:</p> <p>At least <u>10 days</u> have passed since symptoms first appeared</p> <p>AND</p> <p>Fever-free for at least <u>24 hours</u> without the use of fever-reducing medication</p> <p>AND</p> <p>Other symptoms have <u>improved</u></p>	<p>If yes, and the child tests <u>negative</u> for COVID-19, the child can return to ChildServe after:</p> <p>Fever-free for at least <u>24 hours</u> without the use of fever-reducing medication</p> <p>AND</p> <p>Other symptoms have <u>resolved</u></p>
<p>ASYMPTOMATIC POSITIVE</p> <p>2. Has <u>the child receiving services tested positive</u> for COVID-19, even though he/she does not have any symptoms?</p>	<p>If yes, the child cannot return to ChildServe until at least <u>10 days</u> have passed since the date of their first positive test. If the child develops symptoms, follow the guidance listed for question #1 above. The child's quarantine timeline will restart.</p>	
<p>EXPOSURE</p>	<p>At this time, children can continue receiving day program, community, and ABA services if they have been exposed, as long as they remain asymptomatic. Note that children may not be able to attend outpatient and clinical services due to different clinical requirements.</p>	

If you or a family member were recently vaccinated for COVID-19 and feel your symptoms are linked to an immune response, please email your location's ChildServe Nursing Supervisor. You may also reach out with any other questions.
