## 2021-22 STAR DOMAIN GAINS – 96%

● % INCREASE

**The STAR Program** (Strategies for Teaching based on Autism Research, Arick, Loos, Falco, Krug, 2004) is a research-validated comprehensive curriculum that includes detailed lesson plans, teaching materials, data systems and a curriculum-based assessment for teaching in the six curricular areas of receptive language, expressive language, spontaneous language, functional routines, academics, and play & social skills. It is currently the only curriculum that has been validated by multiple independent randomized control trials.
